

May 11, 2020

To Faculty, Staff, and Students,

As part of our continuing effort to provide updates regarding the novel coronavirus (COVID-19) while we work to maintain the health and wellness of our students, faculty, and staff, we wanted to inform you that an employee at the Albany campus has tested positive for COVID-19 and will remain isolated from the campus population until public health officials have indicated they may return.

We sincerely wish this individual a full and rapid recovery. At this time, it appears there was minimal contact with others on campus as a result of current social distancing and work from home efforts. Those who may have come into contact with the individual are being notified and will work from home in quarantine for 14 days as a precaution.

The locations (Nano Fab Xtension (NFX) on the Center for Semiconductor Research side and temperature screening area) that the individual with confirmed COVID-19 exposure had visited are being sanitized. For those essential employees who are on campus, please know you may see further deep cleaning in the specific areas on campus where the individual had been, which may involve a cleaning crew wearing hazardous materials suits.

As we have previously shared with you, given the likelihood that our campus would be impacted with an illness, COVID-19 Exposure Guidance procedures have been implemented and are being followed. It is also the institution's responsibility to safeguard the privacy of those on campus, and in accordance with federal law related to health information, any impacted individual(s) cannot be identified. We will continue to alert you about any COVID-19 cases impacting our campus.

To help answer a number of questions and to keep our community informed about the latest COVID-19 information, please visit SUNY Poly's COVID-19 webpage, which is updated regularly: <https://sunypoly.edu/covid19>.

SUNY Poly will continue to put in place the necessary measures to maximize our community's health in as transparent a manner as possible. We hope by sharing these facts, it will help us to remain calm in the face of uncertainty. Most of all, we truly appreciate your flexibility, patience, and understanding at this time.

The Office of the President
